Oversight

WHO

Who should attend ?

Leaders, managers, and professionals in

- Strategy & business planning and performance management
- OSM (Office of Strategy Management) VRO and (Vision Realization Office)
- Organization Development & Innovation professionals
- All other leaders, managers and practitioners responsible for strategy execution in their organizations or business units

WHAT

About the Training

- Acquire access to the "strategy implementation toolbox" and learn to how effectively develop strategies and conduct proper strategic analysis
- Learn how to develop a target operating model
- Ensure linkage to performance management
- Learn how to build a Balanced Scorecard and cascade it across the organization
- Build capabilities in strategic and operational alignment
- Understand how to cultivate the right culture needed to execute strategy

WHY

Key Benefits

This is a hands on training in strategy execution heavily focused on case studies and practical applications. Participants are asked prior to the event to identify their strategy execution pain points and gain access to tools and methodologies to tackle them during the training itself. Participants will learn proven as well as next generation techniques to implement strategy, and a post training consulting session will be conducted to check on the application of the learnings.
